EDUCATION

Haldia Institute of Technology, **2022-2026**
B. Tech in Computer Science (Data Science) | **CGPA: 7.96**
Relevant Courses: Java, Python, Data Structures and Algorithm, Database Management System, Computer Networks, Web Development, Artificial Intelligence and Machine Learning

WORK EXPERIENCE

Deccan AI (Freelancer), Remote **Jan 2026 - Present**
AI Model Evaluator

- Evaluated **AI-generated responses** based on quality metrics like **relevance, accuracy, and clarity.**
- Identified errors and provided **corrective feedback** to improve model outputs

Wipro COE, Remote **Sep 2025 – Nov 2025**
Database Trainee (Oracle Express Program)

- Learning Oracle Database fundamentals including **PL/SQL, normalization**, and **schema design.**
- Implementing mini-projects on **query optimization** and relational **schema management**.

IBM SkillsBuilds, Remote **July 2025 – Aug 2025**
Agentic AI Intern (Training cum Internship)

- Developed an **AI-powered Medical Assistant** capable of answering user queries with contextual memory.
- Utilized **prompt engineering** techniques and integrated the **Gemini API** for intelligent, dynamic responses.

Euphoria GenX, Kolkata **Jan 2025 – March 2025**
ML and Cloud Intern

- Built and **deployed ML models** (Spam Classifier, Churn Predictor) using **NLP & AWS**.
- Collaborated in a **5-member team**; delivered models with **95%+ accuracy**.

Projects

ResumeIQ – AI Resume & Cover Letter Generator

- Built **AI tool with LLMs** to analyse resumes vs. JD and provide skill-gap insights.
- Created **interactive web UI** with instant feedback.

Cast It – Online Voting System

- Developed secure voting app **(Node.js, Express**) with Aadhaar-based login.
- Implemented real-time vote counting & admin dashboard.

SmartCare – AI Medical Assistant

- Integrated Google **Gemini LLM** with **Gradio** for medical Q&A.
- Enabled document/image analysis and automated report generation.

Skills

- **Languages:** Python, Java, SQL
- **ML/AI:** Machine Learning, Deep Learning, TensorFlow, PyTorch, NLP, GenAI, LLMs
- **Web Dev:** HTML, CSS, JavaScript, Tailwind, Node.js, Express, MongoDB
- **Tools:** Git, Docker, AWS, GCP, Google Colab, VS Code

Achievements

- Secured **4th position** in Overnite Hackathon (Prayukti Fest) at college.
- Completed Over **200 LeetCode** Problems.
- Represented both my department and college at the prestigious **GitHub Tech Drill** Contest organized by **LTIMindtree** in association with **GitHub.**
- Certificates: **Python Programming** (Udemy), **Full Stack Development** (Udemy)**, Agentic AI**(IBM)
